

- Linear phased array for non-metal (composite, plastics) and metals (bars, plates, pipes, tubes)
- Phased array, TOFD, and TFM/TFMi for weld inspection
- Touchscreen
- Water and dust protected – designed for IP66
- Standards : ISO18563 (EN16392) & EN12668
- Field Upgradeable

Phased Array Applications

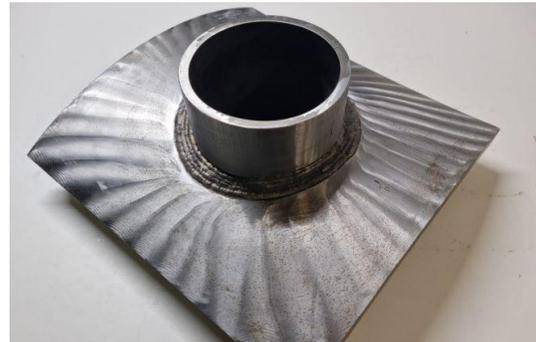

Composite/GFRP/Plastics inspection

Corrosion mapping in pipes/tanks

Weld inspection

Nozzle weld inspection

Conveyor Belt Inspection

Bolt Inspection
